

Dear Store Manager,

I would like to request that our collective carry Plus Products - high quality medicine made from all organic and natural ingredients. They are fast-acting, low-calorie, vegan-friendly, and low-sugar, all made with love right here in California. I enjoy being a part of this collective and would love to find Plus Products in the edibles selection. Please contact Plus Products directly at (650)-416-6980 if you have any questions.
